

Eclipse Aluminium Baffle Suspended Ceiling Baffle

- The T&R Aluminium Baffle is an elegant linear ceiling, made up of extruded aluminium profiles.
- Has a sleek and seamless appearance. Appropriate for airports, malls, offices, hotel foyers, museums and commercial areas.
- The baffles are aesthetically pleasing and easy to maintain. Unlike timber, the baffle doesn't warp. Powdercoating options allow for a timber look.
- Can be installed with integrated lighting options; Gridlux can be incorporated into the aluminium extrusion and the luminaires are flush with the base of the baffle.
- Powder coat options offer great flexibility in colour.
- Unique and client specific in its suspension system options.
- Add acoustic absorption behind for good reverberation control/high NRC.

Compatible with Gridlux

Eclipse Aluminium Baffle Suspended Ceiling Baffle

TEST DESCRIPTION

RESULT

Noise Reduction Coefficient

Depends on acoustic material behind

Weight

Depends on configuration

Luminaires

Able to incorporate Gridlux

• SIZE

150mm Baffle

150mm Baffle with Gridlux

100mm Baffle

100mm Baffle with Gridlux

150mm x 25mm Baffle

135mm x 25mm Baffle

• COLOUR

Any powdercoat colour

Threaded rod suspension system

Fixes into Carrier Rail with M10 Spring Nut

Poyester Insulation above the baffle (either directly on top or in the ceiling plenum) will create an acoustically absorbent ceiling
